SPAWN MAGIC

STERILIZED SORGHUM MUSHROOM GRAIN BAG

MUSHROOM TYPE: ALL

This ready-to-use sterilized sorghum grain is carefully hydrated for rapid colonization by mushroom mycelium. The package features superior filters to allow optimal air exchange while minimizing contamination risk, and an injection port for quick and easy inoculation with any culture syringe.

AVAILABLE IN 3 LB BAG

CVG MUSHROOM SUBSTRATE

MUSHROOM TYPE: DUNG-LOVING

This premium CVG mushroom cultivation substrate combines coco coir and vermiculite, which is then carefully pH-balanced with gypsum, hydrated to field capacity, and sterilized to be shelf-stable. CVG is a convenient substrate for dung-loving mushrooms, perfect for monotubs and more.

AVAILABLE IN 5 LB BAG

ALL-IN-ONE MUSHROOM GROW BAG

MUSHROOM TYPE: DUNG-LOVING

There is simply no easier way to cultivate dung-loving mushrooms than the All-In-One Mushroom Grow Bag. Sterilized sorghum grain and properly hydrated CVG substrate are combined in one package for everything you need to grow great mushrooms. Simply inoculate via the injection port, wait, and harvest.

AVAILABLE IN 5 LB BAG

MASTER'S MIX GOURMET MUSHROOM SUBSTRATE

MUSHROOM TYPE: WOOD-LOVING

This 50/50 mix of soy hulls and hardwood sawdust, hydrated to 60% moisture and carefully sterilized, makes it easy to cultivate wood-loving mushrooms, like oyster, lion's mane and reishi. Featuring an injection port for contamination-free inoculation, this product saves time and energy by encouraging rapid colonization for large initial flushes.

AVAILABLE IN 5 LB BAG
